Giving Families Access to College & Transforming Lives

When is the best time to think about college?
It's younger than you think and encompasses more than just saving for college. You'll want to consider standardized testing (PSATs to SATs) and overall academics. Are you (or your child)

an honors student? College Prep or AP? Even sports and extra-curricular activities come into play.

PCCI takes it all into consideration and gets students on the right track and finds the right college fit. Helping you through the application process and striving to maximize merit scholarship dollars and financial aid. **Summer is the perfect time to begin working together to review potential colleges and determine if they are a good match!** How can we help you carve your path?

Best regards,

Honorita DaSilva-Kilgore, Esq.

“Working with Honorita of PCCI was a great experience and one of the best investments my family made. Honorita researched majors, which are different at each school. She looked at what the schools offered, and expanded on the kind of schools I was looking for. Many of my friends applied to ‘safety schools’. Honorita helped me find target schools that were a good fit for me and then helped with scholarships and all the fine print. I was accepted into five of my target schools and waitlisted at reach schools. Middlebury College was actually one of my reach schools and they gave me a very good scholarship.”

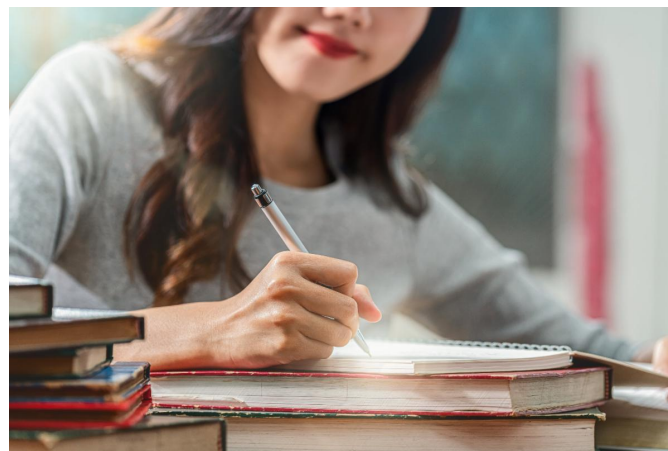

- Amanda Martins, Undergraduate at Middlebury College (Fall 2021). Major: Architecture

Upcoming Shows

Finding the Best College Fit

Be sure to tune in on Monday, June 21, 2021 from 2-3 p.m EST as Honorita DaSilva-Kilgore talks about giving families access to college and transforming lives on the **Positive Living Show with Patricia Raskin!**
